Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their tank is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—ij's itself—is constantly producing waste matter the kidneys must remove from the blood if good beath is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness under the eyes—feel tired, nervous, all worn out.

comfort to the needy one to speak to him in generalities about a great God who is ready to help people. When I am in need I want to know whether there is any help for me. Jesus healed Peter's mother in the home, and then He went out and healed multitudes in the throng, but in each case it was a personal interest which He took and a personal healing that was received.

Observe also that He met the need ot, scanty or burning passages of kid- of all whether they were sick in

Observe also that He met the need body, mind or spirit. Someone may say, "That is all very well, but that took place when He was here or earth." Well, He is here now, work ing in and through the power of the Holy Spirit and in and through His hildren. The Lord Jesus Christ daily satisfies every need of His lisciples, and often does so in ways which are miraculous in their

II. Sacrificial Service Exempli-Following Jesus in discipleship is more than speaking sweet words of devotion or of taking part in the ship ministry. To really follow Him is to "follow one whose vocation is such that there are incessant demands compelling the renunciation of home and the comforts of a set-tled life. Only the call of God can make one equal to the demands of such a hazardous life" (Edward E.

Observe that even the demands which love may present on behalf of an aged father must not be permitted to stand between the disciple and his Lord. There is no though of unkindness or lack of considera tion here, for as our Lord points out, those who are spiritually dead although still physically alive, may well be called on to care for the physical needs of an aged parent even in the hour of death, if the Lord Jesus has work for His disciple

to do elsewhere. There is no thought of neglect of the duties of life, but rather of a placing of the Lord first, whatever else may take the second place The blight upon many a Christian experience is that almost anything else which is of interest is allowed to take first place and the Lore must take second place if He is given any place at all. III. Divine Power Demonstrated

(vv. 23-27).

There are those in the world who re unable to see the workings of God's power in the spiritual realm because they themselves have no been spiritually born again (I Cor. 2:14). For these the Lord here presented the working of His mighty power in the realm of nature. Satan, who is "the prince of this world" (John (14:30) had evidently whipped the waves of the sea int a mighty storm, possibly thus hor ing to drown Jesus and get rid of his divine adversary, but the Lord Himself speaks in the majesty of His eternal power and we read that "there was a great calm" (v. 26) Even His disciples were strangely astonished that the very "winds and the sea obey Him." Yes, th forces of nature respond to His slightest word. The winds and the sea obey Him. But what is even more wonderful is that the turmo of a man's soul becomes a grea
